

Dimensions

LED Indicator Status:

Charging		LED flashing slowly
Unit defective		LED flashing quickly
Fully charged		LED on
Battery empty		LED off
Discharge		LED off
No power		LED off

Wiring

Minimum of 2x bulbs on emergency circuit

for 6x bulbs	60 mins
for 4x bulbs	90 mins
for 2x bulbs	180 mins

Technical features

Input voltage	AC220V / 50Hz	Adaptive power	8 to 20W	Emergency time	60 to 180 mins
Emergency output	DC12-30V / 0.60A	Emergency power	8 to 20W	Recharging time	> 24 hours
Battery life	500 cycles	Working tempt.	-25 to 45°C	Tc.	55°C
